REPORT OF CAPABILITY BUILDING AND SKILL ENHANCEMENT ORGANIZED IN COLLEGE

Eco Friendly Ganesha Making Report (2021-22)

To enhance the creativity of students, to inculcate traditional values in them and also to sensitize them towards the environment, Maa Rewati College of Education conducted "Eco Friendly Ganesha" activity on 21 August 2021.

Eco Friendly Ganesh Creation Programme was conducted under the guidance of Neelesh Kotare Ji.

Our college students made Ganesha idols using colourful play dough. Our students put their innovation and creativity to best use by using clay / dough to create replica of the divine lord. This also inculcated in them the habit of being resourceful. The positivity of seeking blessings by prayer was felt across all the grades.

Students prayed the 'Vighnaharta' to eradicate this pandemic. It was a blissful and fun-filled activity. It also reflected the devotional feelings of students and their parents. They all were excited to keep their handmade idols for puja on the auspicious day of Ganesh Chaturthi.

ART AND CRAFT EXHIBITION (2022-23)

Maa Rewati College, has organized an Art and Craft Exhibition which was surely splendid. The amount of enthusiasm from the participants and the talented works of the students from course B.Ed. and Ba. Bed was remarkable. Indeed, the highlight of the exhibition was a section called "I-SPACE" which demonstrated the various inventions and discoveries of the technological world that has left everyone speechless. Today's world and whose importance was perfectly shown by our students. This is a very important exhibition for our students.

The exhibition was inaugurated by the renowned painter, Mrs. Manisha SONI who was the chief guest of the ceremony. She shared her opinions on the thoughtful ideas and presentations given by the students in the exhibition and also spoke some words on the importance of arts and crafts in the life of any individual. She said that one could share his/her own views through arts than any writing and painting and drawings exhibition should be appreciated at very large scales in colleges. There was also the sculpture section titled, 'Best from Waste' in which students from the Fine Arts Department made a 10-foot high statue of the Buddha which was wonderful and very much praised by the guests. Surely the ceremony by organizing an exhibition proved very beneficial for both technical and art world and these opportunities for creative ideas will always begin to bloom for the development of the nation.

Photographs of Capability building and skill enhancement

Career and Personal Counselling

It is often said that knowledge is power, but what makes it more compelling is how one deals with it. Career counseling is the process of guiding and helping an individual in making their career plans by understanding their requirements and suggesting career options based on their interest and scope of the field. In our college we have a department of Career Counseling, members helps students in choosing the career options.
