DVV.7.1.6

Institution is committed to encourage green practices that include.

1. Encourage use of bicycles/e-vehicles
2. Create pedestrian friendly roads in the campus
3. Develop plastic-free campus
4. Move towards paperless office
5. Green landscaping with trees and plants

Sustainable Campus Policy:

Maa Rewati College of Education, Mandla

1. Encourage the Use of Bicycles and E-Vehicles

To reduce the campus's carbon footprint, we encourage students, faculty, and staff to adopt eco-friendly modes of transportation:

- Provide secure bicycle parking facilities across the campus.
- Offer incentives or subsidies for purchasing bicycles or e-vehicles.
- Develop e-vehicle charging stations in the parking areas.
- Conduct awareness programs on the health and environmental benefits of cycling and e-vehicle use.

2. Create Pedestrian-Friendly Roads

To ensure safety and promote walking within the campus, the following measures will be implemented:

- Designate specific pedestrian zones where motorized vehicles are restricted.

- Improve sidewalks and walking paths with clear signage and lighting.
- Prioritize pedestrian safety with the installation of speed breakers and crosswalks.

3. Develop a Plastic-Free Campus

Our goal is to phase out single-use plastics across the campus:

- Ban the use of plastic bags, straws, and disposable cups in campus canteens, shops, and events.
- Promote the use of reusable alternatives like cloth bags, metal straws, and water bottles.
- Organize workshops and awareness campaigns on the environmental impact of plastic waste.
- Collaborate with local authorities for efficient waste management and recycling initiatives.

4. Move Towards a Paperless Office

To reduce paper waste and improve efficiency, the following steps will be undertaken:

- Implement digital communication tools for all internal and external correspondence.
- Introduce a document management system for secure, digital storage of official records.
- Encourage the use of electronic forms and e-signatures for administrative processes.
- Provide training and resources to staff on transitioning to a paperless workflow.

5. Green Landscaping with Trees and Plants

To enhance the campus's natural environment and promote biodiversity:

- Establish green spaces with a variety of native trees and plants.
 - Develop a policy for tree planting on special occasions, such as Earth Day and other community events.
 - Involve students and faculty in maintaining the campus garden and landscaping activities.
 - Collaborate with local environmental organizations for tree plantation drives.
-

This policy aims to create an eco-friendly, sustainable environment for all at Maa Rewati College of Education, Mandla. By implementing these steps, the institution will serve as a role model in promoting environmental consciousness and responsibility.

Subject: Encouraging the Use of Bicycles and E-Vehicles on Campus

Dear Students, Faculty, and Staff,

In our continuous effort to promote a sustainable and eco-friendly campus, Maa Rewati College of Education is pleased to announce a new initiative aimed at encouraging the use of bicycles and electric vehicles (e-vehicles) within our college community.

Key Objectives of the Initiative:

1. **Reduce Carbon Footprint:** The increased use of bicycles and e-vehicles will help reduce air pollution and the carbon emissions generated by traditional vehicles.
2. **Promote Health and Fitness:** Regular use of bicycles contributes to better physical health and well-being.
3. **Save Energy and Costs:** E-vehicles are energy-efficient alternatives that reduce fuel consumption, making them a cost-effective option in the long run.
4. **Ease of Mobility:** With less reliance on conventional vehicles, we aim to reduce traffic congestion on campus and ensure smoother movement.

Incentives for Bicycle and E-Vehicle Users:

- Designated parking spaces for bicycles and e-vehicles will be made available close to all key areas on campus.
- Special incentives, such as priority parking and discounts at campus stores, will be offered to regular bicycle and e-vehicle users.
- The college will organize periodic workshops and awareness campaigns on the benefits of sustainable transport.

Appeal to All Students and Staff: We strongly encourage all students, faculty, and staff to contribute to this green initiative by opting for bicycles or e-vehicles for commuting to and within the college campus. Let us join hands in making Maa Rewati College of Education a model of sustainability and environmental responsibility.

We look forward to your active participation in this eco-friendly movement!

Warm regards,

[Principal's Name]

Subject: Initiating a Plastic-Free Campus at Maa Rewati College of Education

Dear Students, Faculty, and Staff,

In alignment with our commitment to environmental sustainability and the preservation of our planet, Maa Rewati College of Education is launching a **Plastic-Free Campus Initiative**. This step is aimed at reducing the usage of single-use plastics on our campus and encouraging environmentally responsible behavior among all members of our college community.

Key Aspects of the Plastic-Free Initiative:

1. **Ban on Single-Use Plastics:** Effective immediately, the use of plastic bags, disposable cups, plastic straws, and plastic bottles is prohibited on campus. We urge everyone to switch to reusable alternatives such as cloth bags, metal water bottles, and eco-friendly containers.
2. **Waste Segregation and Recycling:** The college will place clearly marked waste bins for biodegradable and non-biodegradable waste. We request all students and staff to responsibly dispose of their waste in the appropriate bins.
3. **Eco-Friendly Canteens:** All food vendors and the canteen on campus will switch to biodegradable plates, cups, and cutlery. We encourage students and staff to carry their own reusable containers and utensils.
4. **Awareness Programs and Workshops:** A series of workshops and awareness campaigns will be organized to educate the community on the harmful effects of plastic pollution and the importance of sustainable practices.
5. **Monitoring and Enforcement:** The college's Eco-Club will oversee the successful implementation of the initiative. Penalties may be imposed on those found violating the guidelines of this policy.

How You Can Contribute:

- Replace plastic items with eco-friendly alternatives such as glass, metal, or wood.
- Participate actively in clean-up drives and awareness programs.
- Encourage others to follow plastic-free practices both on and off-campus.

Our Vision: Through this initiative, we aim to create a healthier, cleaner, and greener environment for everyone. Together, let's work towards a plastic-free future and make Maa Rewati College of Education a beacon of sustainability and environmental stewardship.

We request your full cooperation and commitment to this important cause.

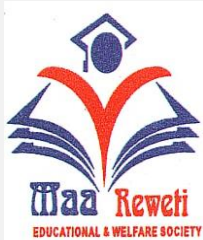

Warm regards,
