Metric 2.3.7

Teaching learning process nurtures creativity, innovativeness, intellectual and thinking skills, empathy, life skills etc, among students

LIST OF SUPPORTING DOCUMENTS

Response:

The curriculum of B. Ed designed for develop the creativity, innovation, intellectual and thinking skills, empathy, life skills etc. of the trainees. Our main focus is student cantered learning. Institution follows the experiential learning with the help of following methods.

1. Creativity.
2. Innovativeness.
3. Intellectual and thinking skills.
4. Empathy.
5. Life Skills.

1) CREATIVITY:-

Creativity is a phenomenon whereby something new is formed; it involves transforming the ideas and imagination of students. In this direction students are given opportunity to enhance their creativity

Case 1 -Students get the opportunity to plan and implement lessons to promote their creative thinking.

Case 2 - The pedagogy courses offered in B.Ed. involve the development of creative and innovative lesson plans. Teachers make the students aware about the different Models of Teaching and supervise them in preparing the lesson plans and motivate them to use their creativity.

2) INNOVATIVENESS:-

Innovation in Education encourages teachers and students to explore

encouraging innovative thinking in students of our college efforts are made by teachers and students in different ways.

Case 1 - Teachers encourage students to involve themselves in doing research projects which leads to innovative ideas by students. Here the teacher gives detailed orientation about the purpose, meaning and procedure of research.

Case 2 - Students boost their innovativeness get opportunities to celebrate important days like Human Right Day, Women Day, Bio Diversity Day, International Earth Day and Nurse Day etc.

3) INTELECTUAL AND THINKING SKILLS;-

Case 1 - To enhance the intellectual skills of student's teachers at Maa Rewati College of Education focus on making the students learn the concept of designing Concept Maps. Here the teachers make the students aware about the different types of concept maps by providing examples from different subjects.

4) EMPATHY;-

Case 1 - Empathy involves experiencing another person's point of view, rather than just one's own. Empathy helps us cooperate with others, build friendships, make moral decisions, and intervene when we see others in trouble.

Case 2 -The Practical course of "Understanding the Self" in the B.Ed. courses at maa rewati college of education provide teachers an opportunity to develop sensibilities, disposition, and skills that will later help them in the personal growth of their own students while they teach. The activities involved like understanding themselves in relation to their students and classroom situations, studying the issues of adolescence, studying case studies of different children who are raised in different circumstances. All these activities are done by the student teachers under the guidance of teacher educators to develop the sense of empathy

5) LIFE SKILLS;-

Life skills is a term used to describe a set of basic skills acquired through learning and/or direct life experience that enable individuals and groups to effectively handle issues and problems commonly encountered in daily life.

Case 1 - Learning to protect our own bodies, creating strong personal boundaries, self-defence and personal safety is something that's absolutely necessary in today's world.
