Passage-1

Passages are big high walls that are built across rivers to keep back some of the water. Water that is kept back is taken through canals and supplied to farmers living in distant villages. The farmers in those villages do not have to depend on the rains and get water for their fields whenever it is needed- more land is cultivated and more crops are grown and there is more food in country.

Therefore dams were built across several of the rivers in old days. The Grand Anicut in Tanjore district is one of the oldest in the country. The kannambadi Dam in Mysore is one of the newer dams very well. Known But there was only a few dams like there and we needed more. So one of the first things that the government did under the five year plan was to build more dams.

Questions: -

- i) What are dams?
- ii) How is water supplied to the farmers from dams?
- iii) What facility to the farmers get?
- iv) What is the benefit of the above facility?
